SKU Code: SHA5296

works with **amazon alexa**

works with the **Google Assistant**

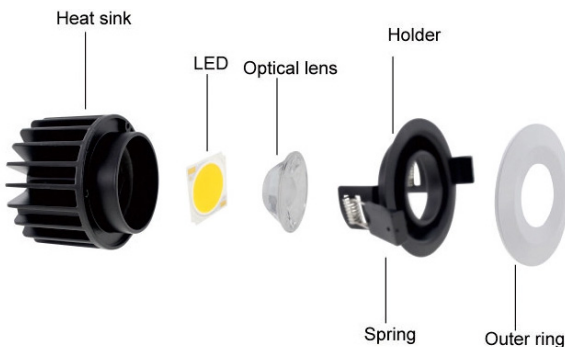

works with **IFTTT**

WiFi 8W Fire Rated LED Downlight CCT Adjustable and Dimmable. Control your WiFi SMART downlight by voice or using the phone app. Set timers, routines and dim your lights. You can control your lighting from anywhere in the world through your smart device. Water resistant to IP44 and fire rated.

## Features

- Compatible with Amazon Alexa & Google Home Assistant. Just download the ENERJSmart skill to enjoy controlling your lighting with simple commands.
- Easy installation, Fit, Connect, Play. Simply wire the product in, connect the app by entering your network details & start communicating with your ENER-J Smart devices.
- Dim your lights anywhere in your home. Brightness control is built into the downlight, so no dimmer switch required.
- Control lights remotely through the ENERJSmart App.
- Create different atmospheres with colour tuning: warm white (2700K), cool white (4000K) and daylight (6500K).
- Set timers and routines for specific lighting needs whether this is for cosy evenings or morning wake ups.
