### Package Includes

1x 720P Wireless Waterproof IP Camera  
1x Power adapter UK Plug  
1x Mounting Screws

### Features

- Standard H.264 video compression algorithm to satisfy the transmission of high definition video.
- 1/4" HD 1.0 megapixel lens COMS Sensor, maximum image resolution is up to 1280\*720@25fps.
- Support P2P (point to point) technology, Video Push alarm, the IP Camera can be linked through the internet without any complicated port mapping.
- Integrated ONVIF standard, compatible with milestone, axxonsmart, NUUO, third-party ONVIF platform software.
- Compatible with brand NVR such as Hikvision, Dahua and so on
- Supports monitoring via computer, iPhone, and Android smartphones.
- Support IE8.0 and above browser, Google Chrome, Firefox
- PC surveillance software and mobile phone client are included, very easy remote network surveillance
- Build in WiFi module, support 802.11b/g/n
- Automatic IR LED illumination for night vision
- Support trigger motion detection, send alarm information by Email.
- Mobile view allows you to realize remote view & recording anywhere & anytime.

### Specifications

|                            |                            |
|----------------------------|----------------------------|
| Sensor                     | CMOS                       |
| Sensor Size                | 1/3 Inch Color CMOS Sensor |
| Effective Pixels           | 1.0 MP                     |
| Lens (mm)                  | 3.6                        |
| Lens                       | IR-cut, Zoom               |
| Shape                      | Bullet                     |
| Minimum Illumination (Lux) | 0.1                        |
| Viewing Angle (°)          | 72                         |

| Product Details            |                    |
